## **SELECTMENS' AND TOWN MANAGER'S REPORT**

To the citizens and taxpayers of the Town of Hartford:

The following are comments pertaining to our report for the year ending December 31, 1964. This is the twenty-fifth report under the Town Manager form of government.

### **Zoning Administration**

Fifteen zoning hearings were held during 1964 by the commission. Forty-one applications were reviewed wherein eleven special exceptions were granted and nine were denied. Twenty variances were granted and one denied. A total of 112 permits were issued by the zoning administration.

### **Town Highways**

#### **Gravel Base Construction and Culverts**

A total of two and seven tenths miles of gravel base construction work was completed on Cushing Road in Quechee, on the Jericho Road and on the Clay Road in West Hartford. The work included a five foot culvert, fifty feet long on the Clay road due to an unexpected collapse of an old stone culvert. A multi plate culvert with a mouth area of approximately forty-eight square feet with a length of forty feet was also installed in the Dothan area to replace a weak plank-type bridge. Eighty percent of the cost of the multi plate culvert came from State Aid funds, with the balance matched by town money from the General Fund.

#### **Retreatment**

The old Quechee road, Stonecrest Avenue and Sykes Avenue received a treatment of dix mix, so-called. The new type of pavement is now being used on roads throughout the state to cover worn out surfaces. A hot mix surface was also applied by grader on a short section of road adjacent to the Quechee Fells Farm. A total of one and five tenths miles was resurfaced last summer.

### **State Aid Highways**

#### **Construction**

The last four tenths mile of Quechee-Hartland road was completed during the summer months. With this three year project completed, only one more State Aid highway remains to be covered with a hard top surface, State Aid Highway known as the Quechee-Taftsville road. A section of this highway is scheduled for work in 1965.

#### **Retreatment**

Due to the extreme wear of truck traffic occasioned by the White River bridge washout, the retreatment money for 1964 was expended on the VA Cut Off and the Hartford Woolen Mill truck routes. The work scheduled for the Quechee to West Hartford road was curtailed and retreatment needed for this highway is scheduled for 1965. One section of road scheduled for 1964 was retreated from the stop-light intersection along Maple Street to the cemetery, for a distance of six tenths mile with a dix mix black top surface.

#### **White River Bridge**

The March 6th bridge washout brought about many problems during 1964, especially the inconvenience experienced by traffic coming and going through town. Fortunately, the temporary piling bridge was constructed and opened for traffic by May 15th. Traffic continued to flow while the remaining work of constructing reinforced concrete piers was underway. Although the bridge has the features of temporary design, one can expect this bridge to last for quite some time. The town participated in twenty percent of the cost (\$17,651.69) and the state in eighty percent of the cost (\$70,606.77). The town's share of the cost is reflected in the 1965 tax rate.

Repairs on the Hartford Village bridge were scheduled for 1964, and were re-scheduled because the state money available for repairs was allocated for construction of the temporary bridge. It is estimated

that the total cost of repairs will be approximately thirty-five thousand dollars (\$35,000.00). The twenty percent needed for the town's share, in the amount of seven thousand dollars (\$7,000.00) is included in the 1965 Budget.

### **Fire District Report**

At the direction of the voters of the 1964 annual town meeting an investigation to ascertain "the advisability and steps necessary to increase the boundaries of Fire District No. 1 to include the whole town, or to dissolve Fire District No. 1 and have the fire department become a part of the town government" was conducted by the Board of Selectmen in co-operation with the town planning commission. After due consideration both the board and commission conclude that the necessary steps should be taken to make the Fire District a department of town government as soon as possible.

To accomplish this end, enabling legislation would have to be passed by the General Assembly of the State of Vermont allowing the dissolution of the Fire District as now in existence with the taking over by the Town Fire District of liabilities and assets of the existing Fire District, also required would be a vote of the existing Fire District and a vote of the town for a Town Fire District. The advisability of such action to bring the district under town government stems from the following reasons:

- 1) The majority of tax payers would conduct the general affairs of the town at one annual meeting.
- 2) Town affairs would be administered under the control of one board responsible to all the voters.
- 3) Centralized billing and tax collection would render both savings and convenience to the majority of the tax payers of the town, along with more utilization of machine accounting.
- 4) Savings would be realized by the elimination of the prudential committee, tax collector, treasurer and auditors.
- 5) As a department of the town, district lines would no longer be a problem of delineation or clarification and there would be no need to extend district lines, from time to time.
- 6) With administrative authority centralized, coordination of the departments would become more simplified and efficient.

In conclusion, the simplification of town government can be obtained where there are less units of government to cope with. In submitting this report, the board endeavors to seek that which appears to be most desirable for the majority of tax payers. Thus the foregoing reasons enumerated demonstrate the best possible method of dealing with town affairs.

### **General Fund - Tax Rate Increase**

Major reasons for the increase in the General Fund tax rate are brought about by the bond and interest payment (\$15,687.50) of the Wilder Sewer Treatment Plant, the town's twenty percent share (\$7,000.00) of the Hartford Village bridge repair and the town's twenty percent share (\$17,651.69) of the temporary bridge which is made up in the 1964 deficit and the 1965 Budget. These items alone increase the tax rate of the General Fund by forty cents.

In closing our report for the year, we wish to extend a word of appreciation by thanking all the employees of the town, the various committees and organizations, and the people of Hartford, for their hours of co-operation and assistance. Remember, you are all welcome to attend our meetings in the Selectmens Room of the Municipal Building.

Respectfully submitted,

Norman E. Reed

George B. Savery

Albert S. Abbott

Selectmen, Town of Hartford

Ralph W. Lehman

Town Manager

REPORT OF THE  
WATER AND SEWER SUPERINTENDENT

To the Board of Selectmen and Town Manager

Town of Hartford

White River Junction, Vermont

Gentlemen:

I herewith submit my report for the year ending December 31, 1964.

The year started with just the routine meter cleaning and repair work we carry on through the winter months. In March disaster struck with the coming of spring thaws and the huge ice flow that wiped out the White River Bridge. The bridge in turn took out the water line that crosses beneath the river in back of the Municipal Building. The Water department crew were on duty and soon had the break valved off and service restored by turning on the Wilder well. It was apparent from the pressure built up that we would not be able to keep the well on continuously. We then set the pump to start and stop automatically. Lebanon Water Department was notified and they co-operated in helping our department in getting the 8" line across the Connecticut River Bridge ready for emergency use in the event of a fire. It wasn't long before we had a fire at the Laundramat. The crew was called in to open the valve from Lebanon, but the Wilder well proved to supply enough water. It was "touch and go" up until July 24th when the 8" line was restored in the river.

We extended the 8" line on Sykes Avenue another 900 feet and tied this into the Hyde Park line that previously was a dead end. Eventually we plan to carry this line down and tie into South Main Street. This will eliminate the dead end by the Lily Pond and also give better fire protection for South Main.

We pumped 114, 500, 000 gallons of water from the two wells. The Hyde Park well is giving trouble as the well screen becomes clogged with sand. Layne Company did some work on the well but it did not prove too effective. In the near future a new well should be installed to keep up with the increasing demand on our water supplies. Two new hydrants were added to the system. Forty-Nine new and renewal services were installed.

A new sewer line was put in on Chestnut Street and Elm Street in Wilder - also on Fairview St. Extension in White River Junction.

Trumbull-Nelson Company started our new Sewage Disposal Plant in Wilder and work is progressing very well on this and should be in operation by the fall of 1965.

Water pipe used is as follows:

3/4"	Copper	1200 feet
1"	Copper	400 feet
1 1/2"	Copper	40 feet
4"	Cast Iron	40 feet
6"	Cast Iron	2960 feet
8"	Cast Iron	1350 feet
10"	Cast Iron	300 feet
Total		<u>6290 feet</u>

Clay Sewer Pipe used is as follows:

4"	600 feet
6"	1700 feet
8"	50 feet
12"	300 feet
15"	18 feet
Total	<u>2668 feet</u>

We constructed fifteen manholes in the new sewer lines.

For further information, see Schedule of Receipts and Disbursements.

Respectfully submitted,

Wesley Hazelton, Superintendent  
Water and Sewer Department

## AUDITOR'S REPORT

We have made an examination of the accounts of all town and town school District Officers, and other persons authorized to draw orders on the treasurer for year ended and without making a detailed audit of the transactions, have examined or tested the accounting records and other supporting evidence, by methods and to the extent we deemed appropriate.

In our opinion the accompanying statements present fairly the transactions and results of operations of the various departments of the Town of Hartford, in conformity with generally accepted accounting principles applied on a basis content with that of the preceding year.

During the year ending December 30, 1964 the following bonds have been paid:

3 %	School District Nos. 1-55	\$ 55,000.00
2 %	School District Nos. 541-585	45,000.00
2½ %	Water Bonds Nos. 118-128	11,000.00
2.4 %	Water Bonds Nos. 48-53	6,000.00
3.8 %	Municipal Bldg. Bonds No. 31-35	5,000.00
2.7 %	Water Bonds Nos. 21-24	4,000.00
		.....
		\$126,000.00

### Interest Coupons Paid in 1964

2 %	Memorial School Bond Coupons	\$ 6,750.00
2½ %	Water Bond Coupons	4,687.50
2.4 %	Water Bond Coupons	3,672.00
3.8 %	Municipal Bldg. Bond Coupons	2,660.00
2.7 %	Water Bond Coupons	1,431.00
3.0 %	High School Coupons	29,475.00
		.....
		\$ 48,675.50

In conclusion, we wish to express our appreciation for the cooperation rendered us during the audit.

Respectfully submitted,

William H. Romano  
Harold Fournier  
Donald Stearns

## REPORT OF THE HARTFORD PLANNING COMMISSION

As required by law, the following report for the year 1964 is submitted by your Planning Commission.

- (1) During the year the Town Planning Commission held several meetings to discuss data compiled by Hans Klunder Associates for the purpose of up-dating the Comprehensive Plan which was initially started in May of 1963. The cost of the report is \$4,212.00, and the town's share of the cost is \$1,200.00. Copies of the report are on file with the Town Clerk, and are also available at the libraries of the town.
- (2) After several discussions with the State Highway Department officials the Planning Commission recommended to the Selectmen that a new bridge be constructed over the White River bridge from the intersection of Barnes Avenue and Route #14 to a point west of Shepard Company on Route #5. The Commission also recommended the retention and maintenance of the present bridge with improvements to the underpass.
- (3) Upon request of the Board of Selectmen meetings were held to seek out the advisability of extending the fire district lines to the boundaries of the town or to dissolve the fire district for the purpose of making the district a department of the town.
- (4) An orientation meeting was held with Paul Guilderson of the Upper Valley Development Council concerning future developments in industrial Development and town planning for Hartford and the upper valley area. As a result of the meeting closer relationship between town and area developments have been improved.
- (5) In March the Housing and Home Finance Agency suspended all activities in connection with Title 1 Urban Renewal for the Town of Hartford, due to the Town Meetings' negative vote on the adoption of Chapter 69 of Title 24 of the Vermont Statutes. Subsequently, the Planning Commission expressed their desire to continue the planning and survey work being performed by the Urban Renewal Agency and the Agency's consultants, and recommended that the Selectmen contact the H.H.F.A. Regional Office for the purpose of completing the planning and survey that was well under way. In April the Regional Director of H.H.F.A. notified the town that the suspension was lifted to allow the Agency to continue Urban Renewal activities.

As always, the Commission continues to serve for better government of the town, and wishes to thank the Boards, Committees and Departments of the town for their fine cooperation during the past year.

Rodney Akers, Chairman  
John Rogenski, Clerk  
Raymond Dancoes  
Francis Drown  
Norman Reed

## HARTFORD CEMETERY ASSOCIATION

### Annual Report

Again this year we wish to point out that we think our Cemetery certainly reflects the added care which we are able to give it with the aid of the grant from the Town appropriation. We have been able to hard surface the roadways, repair broken and tilted monuments, cut brush and trees and generally improve the appearance greatly. This coming year we are faced with the task of development of more lots and the laying out of a new road to provide a new section.

We wish to thank our citizens for their assistance in helping us to maintain and improve our cemetery. The following is a statement of our financial condition.

Clayton S. Rice,  
Superintendent

### DANA E. LEAVITT

We lost one of our best officers when Dana Leavitt passed away while carrying out his duties. Dana was respected by his brother officers and all those who knew him. He was faithful and loyal and a friend to all. In the performance of his duties he could always be depended upon to do his job well and at the same time be fair and use discretion. Dana will be missed but not forgotten.

## REPORT ON CIVIL DEFENSE Town of Hartford, Vermont

1964 has been an historic year CD-wise as well as for all the people of the town. We shall begin to mark the years in CD and elsewhere from "when the bridge went out" in '64.

At that time, last March, when the bridge went out cutting a major highway, taking with it all the local communication lines, the resulting problems were manifold. It became decidedly clear how important a working, well-organized plan for disaster control really is to a town in meeting natural disasters. Some of the previously planned steps were carried out quickly and efficiently. Communications were established on emergency basis, and assistance of all kinds were given where priorities demanded; the fire company plans for adequate protection for the entire community were quickly put into effect; traffic control was established; and maintenance crews were immediately activated. All CD'ers - executive, communications, fire and rescue, maintenance crews and police units rallied around to perform over and above their normal routines in a superb manner. Many details worked out at the moment could have been done better at second thought, but no one doubted the effect of pre-planning or the willingness or capabilities of all the volunteer help offered. Your Chairman has received a letter of commendation from Gov. Hoff on the excellence of the performance of the CD units during this natural disaster. My personal commendations and thanks go out also to all who worked so hard and faithfully, including all who offered their help or volunteered their time, food, and other valuable assistance at that time.

I believe that if it served no other purpose, this experience convinced many of us of the integral worth of CD; that CD, especially an adequate communication net, is essential in this town. Too often, a community must sustain a painful experience before it recognizes that there is a more responsible way to provide protection of its citizens, preservation of its property, and the continuity of its government, than to ignore civil defense. The people have a right to expect their elected officials to look after such needs in a timely and prudent manner. This experience of ours, does, I think, reflect this effort on the part of your town officials and chairman.

Since then, our efforts have been concentrated on two areas; one, to increase the potential of our communication system, including an adequate warning system, with new and better equipment and more trained operators. We still need people interested in radio work, for training purposes, and a bit more up-to-date equipment. The local Citizens Band radio net has offered their assistance at any time, and will be used as auxiliary if needed; two, to increase training in survival methods by making available to the citizens of this town, classes in Adult Education CD courses on Survival Training, Medical Self-help, Radeff training, and First Aid. More such courses are planned for the next year.

This last year, I attended several CD workshops in Windsor, Woodstock and Montpelier; I attended the Instructors course for Survival training, and completing my 5th year as State Representative for the national USCD Council, I attended the regional conference in Poland Spring in June. I instructed a class in Medical Self-help where 12 people completed the course. The Shelter program has completed the first phase in this town, and we are entering the second phase where we are looking for areas with less protection factors with a potential of 50 or more shelterees. We are also looking for individuals to become shelter managers in the building where our shelters are located.

While not many people seem to be directly concerned, CD is a continuing program in our town. With adequate appropriations, training programs, procurement and continuance of the programs under way, CD will be continued. Certainly the lessons we learned last March will not have been in vain, and can only spur the action of all to build a larger and more effective CD unit in the town of Hartford.

SERVE TO SURVIVE

Irene L. Romine  
Civil Defense Chairman,  
Town of Hartford

MARY HITCHCOCK MEMORIAL HOSPITAL  
Hanover, New Hampshire

Dear Mr. Lehman:

During the year January 1, 1964 through December 31, 1964 the HARTFORD FREE BED FUND in the Mary Hitchcock Memorial Hospital, Hanover, New Hampshire has rendered 110 days' service to 14 residents of the Town of Hartford.

The charges at the minimum hospital rates for service rendered during the period amounted to \$3,726.50.

The portion of Free Bed Funds allotted by the Trustees for 1964 was \$1,000.00. In addition, the Town of Hartford made cash payments in the amount of \$3,034.62, showing a total of \$4,034.62. Subtracted from this figure was the 1963 overuse of \$2,180.67, and a net allotment of \$1,853.95 for the year.

Please accept my thanks for your fine cooperation during the past year.

Sincerely yours,

January 26, 1965

W. L. Wilson  
Administrator

## HEALTH OFFICER'S REPORT

Mention should be made of the many health services rendered the citizens by the State Health Department, contacts being made through the State Nurses. Many have availed themselves of special State Clinics, as the Chest Clinics and Orthopedic clinics.

The following Communicable Diseases were reported the last year: Mumps 86, Chicken pox 14, Infectious Hepatitis 5, Scarlet fever 10, Measles 15, Whooping cough 5.

Many people were assisted in sending in samples of drinking water to the State Laboratories.

Complaints were received as to improper cess-pool care, garbage disposal, and swimming in the White River, but eventually a more adequate swimming facility must be provided for the children.

Respectfully submitted,  
Kenneth M. Stephens, M.D.  
Health Officer,  
Town of Hartford

## REPORT ON URBAN RENEWAL

White River Junction, Vermont

Gates Park Renewal Project

Business District - Vt. No. R-5

The Urban Renewal Agency of the Town of Hartford has completed its Survey and Planning of the proposed renewal within the Gates Park Project. During January 1965, a draft of the plan was submitted to the New York Regional Office of the Housing and Home Finance Agency for preliminary review. On February 15, 1965 the final plan is to be submitted to the same office for its final review and approval. Officials of the Housing and Home Finance Agency have indicated that three to six months of study is required before approval is made. It is hoped that during June of 1965 the Agency will be able to call for a Special Town Meeting asking for local approval.

In the interim, between March and June of 1965, the Urban Renewal Agency will present the plan to the citizens of the Town of Hartford, in which will be shown the problems that exist, the solutions to the problems, the cost of the program, and the overall benefit the Town will receive by having an Urban Renewal program established. The message of Urban Renewal will be presented through a series of talks, with the use of visual aids, to all organizations in the Town of Hartford. In addition, prior to the Special Town Meeting, a formal public hearing will be held which will afford every citizen the opportunity to view the proposed project and to pose any questions.

The Commissioners of Urban Renewal were appointed by the Selectmen of our Town to study the overall problems of the Central Business District, and to present to the entire Township their ideas in making the business district a more attractive and productive area. The forthcoming report as formulated by the Commissioners and their professional consultants is believed to be one solution to one of the problems which exist in the Town of Hartford.

Annual  
SCHOOL  
REPORT

Town of Hartford  
Vermont

For the Year Ended  
July 1, 1963 to June 30, 1964

# JOINT REPORT OF BOARD OF SCHOOL DIRECTORS AND SUPERINTENDENT OF SCHOOLS

To the Citizens of Hartford:

The following report is submitted jointly by the School Directors and the Superintendent of Schools. The reports of Principals Gates and MacKenzie have also been incorporated.

## Enrollment September 9, 1964

	12	11	10	9	8	7	6	5	4	3	2	1	Tot.	Jan. 1965
Hartford High	117	111	156	127									511	520
Hartford Memorial					127	151				70	76	85	509	515
Mem. School Annex							103	97	66				266	276
Hartford Grammar							23	22	29	25	41	36	176	181
Quechee Grammar							18	13	17	21	13	20	102	112
Wilder Grammar									27	26	39	39	131	136
Ottauquechee													23	23
	117	111	156	127	127	151	144	132	139	142	169	180	1718	1763

You will note in the above chart that the total school enrollment has increased to 1763. Twenty-three of the forty-five increase directly connected to the construction of highways and bridges in the area.

Q. Is it possible to predict how the enrollment will be affected due to highway construction?

A. No.

## Instruction

There have been eighteen staff changes as a result of: additional teachers due to increased enrollment; additions to curriculum offerings; retirement; and teachers leaving for other positions.

Q. What areas in the curriculum have been extended or added?

A. Hartford High with its new facility is now offering Art; Technical Drafting; Vocational Electricity; Auto Mechanics; a full-time Librarian; additional teacher services to Home Economics. We have also added a full-time Elementary Music person.

Q. Are you contemplating additional staff for the school year 1965-66, if so, why?

A. Yes. We must meet the following needs:

1. Increased enrollment
2. Increasing class sizes in the elementary schools
3. Expanded curriculum
4. Enriched curriculum
5. Meeting the minimum state high school standards

Also in answering the "why", it seems appropriate at this time to generalize:

Something big and dynamic has happened in American society during the past few years. It seems to be undergoing a change so rapid that nobody can predict what the end of the cycle will be like, however, many guesses can be made. This change is having a bewildering impact upon all of our institutions, but particularly the schools, homes, and communities. These institutions need to cooperate in every area where youth are concerned to see that they are not exploited but properly protected, guided, and directed academically, morally, and intellectually. This is no small task and each agency can perform some of the tasks infinitely better **than the others**. Society consigns our children over to us as their keepers, and keepers have a vast list of responsibilities. This is a great privilege but one which makes special demands upon us, whether in the home, school, or community. The joint effort which we expend in behalf of our children is sure to render rewards which will become matters of community pride at some future time.

The heart of our problems with youth probably lies in how we are to guide and direct them -- what the guidelines should be. Some people say our children are maturing naturally earlier in life than ever before, while others say that they are permitted to function as adults while too young to accept the responsibilities of adulthood. Perhaps we tend to rush our children through the steps of childhood; constantly **showing them by our own** example, by T.V. commercials, and various other media, that adulthood is a

glamorous, carefree, and completely self-satisfying goal? That adulthood is so desirable that at least late adolescence can be by-passed and not even missed! Unless our children face up to well-organized stages in developing adult responsibilities, they will find it disillusioning.

Our children need to be educated as never before. At one time our society had a place for the school drop-out. This is not true any more. The drop-out has become a community and national liability -- expensive to rehabilitate, troublesome, and unproductive.

Our classroom procedures are undergoing change. Subject matter has been revised extensively due to new knowledge on the necessity of making a new approach to old knowledge. Changes in instructional are not being made just to make work easier for the student. It is done to organize knowledge in a better-packaged arrangement or provide room for new knowledge which must be included in revised curricula. It adds up to a demanding type of work from both teachers and pupils.

Because American education is broadening its concept of basic function:

1. It should provide programs of high interest levels for all individuals and in this way prevent drop-outs.
2. It should provide traditional programs with no slackening of needs.
3. It should provide an education for those children who are educable but for whom the public school has no program.
4. It should teach a line of skills which lie outside the traditional academic skills.

Education has finally become big business and is bidding to become bigger. We have only to listen to our legislators at the state and national level to realize that this is so.

For a few years -- the self-contained classroom has been under fire. Perhaps all the while we were thinking about the one-room country school, but many of our village and city classrooms were self-contained. It seems that, at some levels, classrooms should come out of isolation to share common learning together, but also that teachers might extend specific talents to more pupils. The process has received wide acceptance in elementary schools and has been given several names, such as, team teaching, departmentalization, or cooperative teaching depending on the way in which the program has been structured. We have found ways of creating pupil learning situations to have obvious advantages which appeal to children, parents and teachers.

If we are to keep in step with the times we can no longer be satisfied with classrooms having only desks, chalkboards and a few wall maps. Our machine-scientific age offers us, for a price to be sure, a great variety of teaching aids; audio-visual aids, and supplementary materials. Using these aids do not make teaching easier, but they are a great advantage to the learner.

The rewards for pupil effort though intangible at the out set become more significant as time passes. Society places a high premium on knowledge. It seeks out and rewards those who possess it.

### **Repairs and Maintenance**

As usual the necessary steps have been taken in keeping our school buildings in good physical condition.

To our knowledge there are no pressing major repairs to be made in any given school.

### **School Building Program**

Elsewhere in the school report you will find a complete report listing Disbursements and Receipts.

Many projects were deferred until we had received the supplemental State Aid money.

It is our hope that this summer will see the completion of the athletic field renovation and expansion; outdoor lights on the school grounds; landscaping and shrubbery; flag pole; and drapes and shades for the classrooms.

Equipment for various departments were also deferred, such as, Physical Education, Business Education, Vocational, and Custodial. Much of this equipment now has been ordered.

The inside painting at Wilder and the old high school were taken out of the contract. This too, is being done on a piece-like basis.

You can be assured that the deferred equipment and renovating will be within the balance as shown in the report.

The following statements of Recommendations and Appreciation is being written directly by the Superintendent of Schools.

### **Recommendations**

I recommend that the School Directors start laying the ground work in land acquisition for school building purposes. This, to me, is the most pressing recommendation at the present time.

### **Appreciation**

I am especially thankful to the many citizens and organizations who have contributed so much to the welfare of our schools.

I wish also to thank the School Directors, teachers, parents and students for their cooperation during the school year.

Carl E. Kelton  
Frank L. Napolitano

## SCHOOL NURSE REPORT 1964

Tuberculin tests were administered to the pupils in grades one and eight. This program was sponsored by the Vermont Tuberculosis and Health Association. Children with a positive test were followed up with a chest x-ray also sponsored by the Vermont Tuberculosis and Health Association. Two hundred and fifty children were tested under this program.

This year an immunization clinic was instituted that included all children pre-school through grade twelve. Many pupils took advantage of immunization against Diphtheria, Tetanus, Smallpox, and Poliomyelitis. A total of one thousand eight hundred twelve immunizations were given.

A general health inspection was given the pupils of each elementary school. Assistance was given Dr. S. L. Garipay, school physician, with physical examinations and athletic heart and lung checks.

Follow up of children with special problems was done. When necessary pupils were taken to Physician, Dentist, or Optometrist.

A Dental Health unit, distributed by the Proctor & Gamble Co., was utilized by teachers in grades one through six. This unit proved to be a worthwhile means of dental health education, however dental disease among school children continues to be a major health problem. A functional dental health program is necessary to combat this problem successfully.

I would like to thank the Lions Club for their continued excellent work with sight conservation; the local chapter of the Salvation Army for their generous financial assistance of needy children; and all other organizations and individuals who have contributed to better health in the Hartford Schools.

Respectfully submitted,

Anne D. Robert, R. N.

School Nurse

**WARNING  
FOR  
ANNUAL TOWN MEETING  
AND  
TOWN SCHOOL DISTRICT MEETING  
1965**

**The citizens of Hartford who are legal voters in Town Meeting are hereby warned to meet at the old Hartford High School Auditorium on Pine Street in said Town on the first Tuesday, the 2nd day of March, 1965, at 9 o'clock A. M. for the following purposes.**

1. To receive the reports of Town and Town School District Officers.
2. To elect Town and Town School District Officers for the ensuing year. (Polls open at 9 o'clock A. M. EST and close at 6 o'clock P. M. EST).
3. Shall licenses for the sale of malt and vinous beverages be granted in this town?  
Yes \_\_\_\_\_ No \_\_\_\_\_

Shall spiritous liquors be sold in this town?

Yes \_\_\_\_\_ No \_\_\_\_\_

(Title 7, Sections 161 and 165 of the Vermont Statutes Annotated).

(Polls open at 9 o'clock A.M. EST and close at 3 o'clock P. M. EST)

4. To see if the Town will vote to collect the General Town, Town Highway and Town School District tax on real and personal estate on or before October 8, 1965; and the Poll and Old Age Assistance tax on or before July 2, 1965 through the Treasurer in accordance with Title 32, Sections 4773, 4791, 5013, and 5019 and 5023 of the Vermont Statutes Annotated.
5. To see if the Town of Hartford School District will vote to authorize its School Directors to pay adjoining towns, where necessary, high school tuition up to Five hundred Fifty dollars (\$550.00) per pupil.
6. To see if the Town of Hartford will appropriate a sum of money not to exceed Three thousand Dollars (\$3,000.00) for the maintenance, care, increase, and support of the Gates Memorial Library, a library held in trust for the Town of Hartford for the inhabitants thereof, pursuant to Title 22, Section 141 of the Vermont Statutes Annotated.
7. To see if the Town will vote to appropriate a sum of money not to exceed Seven hundred dollars (\$700.00) for the maintenance, care, increase, and support of the Public Library in Wilder as authorized by Title 22, Section 141 of the Vermont Statutes Annotated.
8. To see if the Town will vote to appropriate a sum of money not to exceed Six hundred Dollars (\$600.00) for the maintenance, care, increase, and support of the Public Library in Hartford Village as authorized by Title 22, Section 141 of the Vermont Statutes Annotated.
9. To see if the Town will vote to appropriate a sum of money not to exceed Four hundred Dollars (\$400.00) for the Maintenance, care, increase, and support of the Public Library in West Hartford as authorized by Title 22, Section 141 of the Vermont Statutes Annotated.
10. To see if the Town will vote to appropriate a sum of money not to exceed Three hundred Dollars (\$300.00) for the maintenance, care, increase, and support of the Public Library in Quechee as authorized by Title 22, Section 141 of the Vermont Statutes Annotated.
11. To see if the Town will vote to have the Town Manager collect all taxes due the Town and to perform all the duties now conferred by law upon the Collector of Taxes as provided by Title 24, Section 1236, Paragraph 10, of the Vermont Statutes Annotated.
12. To see if the Town will vote to appropriate a sum of money not to exceed Four hundred fifty Dollars (\$450.00) to aid the Veterans Council in defraying the expense of a proper observance of Memorial Day as provided in Title 24, Section 3907 of the Vermont Statutes Annotated.

13. To see if the Town will vote to appropriate a sum of money not to exceed Seven hundred Dollars (\$700.00) to be used jointly with the income from the Mrs. M. J. Bartlett endowment, to the Mary Hitchcock Memorial Hospital to provide a free bed for the use of the Town as authorized by Title 24, Section 2602 of the Vermont Statutes Annotated.

14. To see if the Town will vote to appropriate a sum of money not to exceed Twenty five hundred Dollars (\$2,500.00) for fire protection in the Town outside Fire District No. 1.

15. To see if the Town will vote to appropriate a sum of Four thousand Five hundred Dollars (\$4,500.00) to be used by the Upper Valley Development Council for the promotion of this community and other communities within the area; provided, however, that this appropriation shall not be paid over by the Selectmen to such organization unless at least 80 % of the total proposed budget for such organization shall be raised and appropriated by the action of other towns within the organization. -By request

16. To see what compensation the Town will vote to pay its Town Officers from the General Fund pursuant to Title 24, Section 932 of the Vermont Statutes Annotated.

17. To see what compensation the Town School District will vote to pay its School Directors from the Town School District Funds, pursuant to Title 16, Section 385 of the Vermont Statutes Annotated.

18. To see if the Town of Hartford School District will vote to support its schools to the end of the school year next ensuing.

19. To see if the Town and Town School District will vote to appropriate a sum of money not to exceed Seven thousand Dollars (\$7,000.00) for the purpose of installing a new heating system in the Ottawquechee School for retarded. -By request

20. To see if the Town will vote to accept the provisions of Chapter 69 of Title 24 of the Vermont Statutes Annotated, relative to the inspection, materials, construction, alteration, removal, repair, and use of buildings and other structures.

21. To see if the Town of Hartford will appropriate the sum of Five thousand Dollars (\$5,000.00) to be expended by the Selectmen for the purpose of assisting the cemeteries in the Town and various cemetery associations owning or in control of cemeteries in said Town, said sum to be divided on an equitable basis.

22. To see if the Town will appropriate a sum of money not to exceed Five thousand Two Hundred Dollars (\$5,200.00) to be expended by the Selectmen for maintenance and operation of the swimming pool, for the transportation of children thereto and for such other recreational programs as the Selectmen shall deem advisable.

23. To see if the Town will vote to appropriate a sum of money not to exceed Two thousand Dollars (\$2,000.00) for the purpose of assisting the operational expenses of the Lebanon Regional Airport Authority through June 30th, 1965. -By request

24. To see if the Town of Hartford will appropriate a sum of money not to exceed Two hundred Dollars (\$200.00) to be expended by the Board of Selectmen for the purpose of Civilian Defense.

25. To see if the Town will vote to exempt twenty-five percent (25%) of value of livestock and poultry from taxation except as stated in and pursuant to title 32, Section 3802, Paragraph 8 of the Vermont Statutes Annotated as amended. -By request

26. To see if the Town will vote to close the polls and count the votes for the Officers to be elected, at six o'clock in the evening at the next annual Town Meeting, in accordance with Title 17, Section 1142 of the Vermont Statutes Annotated.

27. To raise money to pay debts and expenses.

28. To do any other necessary and proper business.

Dated at Hartford, Vermont this 10th day of February A. D. 1965.

NORMAN E. REED,  
GEORGE B. SAVERY,  
ALBERT S. ABBOTT,  
Selectmen, Town of Hartford, Vermont
